Settings >

Settings Overview

Manage your personal administrator profile and oversee institutional configurations for your school from this central hub.

Personal Settings

Profile

Update your administrator details, contact information, and professional credentials.

Account & Security

Manage your password, two-factor authentication, and active sessions.

Institutional Settings

School Information

Configure institutional details, academic calendars, grading systems, and global contact information for external communications.

Notifications & Privacy

Configure system alerts, email digests, and data privacy policies for the institution.
